WICHITA MARKETS

The Receipts of Stock at the Wichits Union Stock Yards for the Past 24 Hours Were: Cattle, 27; Hogs, 562. Shipments: Cattle, None; Hogs, None.

WICHITA, May 13, 1892. The cattle supply was very light today. The market opened about 10 cents lower than yesterday. Buyers were very slow to take hold and it was almost impossible to effect sales. The market is dull and weak, all in consequence of the very un-satisfactory condition of eastern markets.

TO points

if the fine the second of the sec

The following are the representative sales of cat-e at the parts today:

The fesh receipt of hogs today was 562 This is the lightest run of the week and it is attributed to the washouts and bad conwere made at an advance of 5 to 10 cents over yesterday's prices, tops of hogs bring-

WEATHER GAUGERS.

THERMOMETERS ARE MANUFAC-TURED WITH GREAT CARE.

They Are Made Very Accurately, and, Though Quickly, Pass Through Nineteen Pairs of Hands-The Different Processes of the Instruments.

The making of a thermometer may be either a delicate scientific operation, or one of the simplest tasks of the skilled mechanic, according to the sort of thermometer made. With the extremely ensitive and minutely accurate instruments designed for scientific uses great care is taken, and they are kept in stock for months, sometimes for years, to be compared and recompared with instruments that are known to be trustworthy. But so much time cannot be spent over the comparatively cheap thermometers in common use, and these are made rapidly, though always carefully. The method of manufacture has been so systematized within a few years that the very cleapest thermometer should not vary more than a fraction of a degree

from the correct point. Whether the thermometer is to be charged with mercury or alcohol: whether it is to be mounted in a frame of 200 FARMS

Fineed, bits prought into use. This machine shaves a block of ice into particles, which and court house, 1. W. Clapp.

FOR HENT-AN ELEGANT S-ROOM HOUSE were the purpose as well as swert the pur them one by one from their icy bath, FOR HENT-SEVERAL GOOD HOUSES CLOSE seizing each so that his thumb nail marks the exact spot to which the fluid has fallen. Here he makes a scarcely perceptible mark upon the glass with a fine file, and goes on to the next.

The tubes, with the freezing point FOR RENT-FURNISHED HOURS, A7 404 marked on each, now go into the hands of another workman, who plunges them, FOR RENT-ONE FURNISHED FRONT ROOM, bulb down, into a vessel filled with water kept constantly at 64 degs. FOR HENT-FURNISHED ROOMS FOR LIGHT A standard thermometer attached to FOR RENT-VERY NICE ROOMS IN A VERY the inside of this vessel shows that the temperature of the water is correct good board at all North imperia ave.

FOR HENT-A BRICK STOKE ROOM NO. 255

Then a third workman plunges the East Douglas avenue, here the late by the property was a state of the pr ulbs into another vessel of water kept constantly at 96. This is marked FOR BENT-THE ENTIRE BANKMENT OF like the others, and the tube is now supplied with these guide marks, each 32 dogs, from the next. A small tab is then attacked to each tube, on which its number is written-for, owing to un avoidable variations in the bore of the tube, each one varies slightly from the

MARKING THE CASES. With its individuality thus established WANTED-TO TRADE A HORSE For the tube goes into the hands of a mark-either a pour or cow, or will sell cheap. Inquite corner Kellogrand Brown avenue, tollege er, who fits its build and hook into the frame it is to occupy, and makes slight frame it is to occupy, and makes slight scratches on the frame corresponding to the 32, 64 and 96 degree marks on the tube. The frame has a number cerresponding with the number of the tube and the tube is laid away in a rack amid

> thousands. The frame, whether it be wood, tin or brass, goes to the gauging room, where it is laid upon a steeply sloping table, exactly in the position marked for a thermometer of that size. The 33, 64 cast take the Missouri Pacific ra and 96 degree marks must correspond with the marks upon the table. If they do not, the error in marking is detected and the frame is sent back for correc-

A long, straight har of wood or metal extends diagonally across the table from the lower right hand corner to the upper left hand corner. On the right this works upon a pivot and on the left it rests in a ratchet, which lets it ascend or descend only one notch at a time. That notch marks the exact distance of 2 degs. With the three scratches aiready made for a bosis the marker could hardly make a mistake in the degrees if he tried.

The marks made upon the frame or Inquire of nearest Santa Fe route ticket case are all made by hand with a geometric per and india ink if the frame is metric pen and India ink if the frame is of wood, and with steel dies if it is of metal. The tube bearing the corresponding number is next attached to the frame. and the thermometer is ready for the market without further testing. Some makers use only two guide marks, but

the best makers use three. In the process of manufacture the ordinary thermometer goes through the hands of nineteen workmen, half of whom are often girls and women. Some of the larger concerns in and near New York produce several hundred thousand instruments annually, and on every one of them the purchaser may see, if he looks closely, the tiny file scratch on the glass at 32, 64 and 96 degree marks-or somewhere near them, as different mak ers use different points. - New York Sun.
